

we have only 2 christian radio stations up here in anchorage, but if you're going to take one away from us, take away the kafc station, not the klove station. whenever i'm feeling down all i have to do is tune into the klove station, and the music that they play lifts me up pretty quickly. it's an awesome radio station and by taking it away from us, you will be doing a great disservice to the city of anchorage. in closing, i just want to say please don't take klove away from anchorage if that's what you're planning on doing. take the other one away if you have to, but leave klove alone. thank you.
